Message from the Executive Director

Since childhood, I've been captivated by the magic of storytelling, igniting an imagination that knows no bounds. Despite facing challenges and navigating through school with an IEP (Individual Education Plan), my unwavering love for reading propelled me to academic success.

Driven by my experiences and fueled by the desire to make a difference, I proudly founded the A to Z Learning Club. As a devoted mother, I understand firsthand the profound impact of nurturing literacy skills on a child's confidence and emotional well-being. Through our innovative programs and dynamic initiatives, we're not just teaching children to read but empowering them to thrive. I am a 2x HBCU graduate who wants to show children that the possibilities are endless as long as you never stop dreaming.

Robin Griffin

Founder/Executive Director of
AtoZ Learning Club

Overview

Our story began in 2020 when founder Robin Griffin started sharing books on Instagram that reflected her twin boys, Aziz and Zion. She wanted to spark early literacy through stories that represented and empowered children of color. What began as a personal passion soon grew into a movement for inclusive, joyful literacy.

Fast forward to the exhilarating year of 2023, when our dream officially blossomed into reality! Securing our 501c3 status in March 2023. Soon after, we proudly hosted a family workshop, joining forces with the Nashville Public Library.

Vision

Cultivating a world where every child, regardless of background, has the tools and confidence to write their own story of success.

Mission

Empowering children and their families through literacy, fostering a love for learning that transcends boundaries.

Your kids deserve the best education.

We build literacy and social-emotional skills through storytelling, promote representation in children's books, and work towards closing educational gaps for marginalized families.

- ✓ Community building through literacy
- ✓ Growth in academic achievements
- ✓ Empowerment and confidence boosting
